PRESS RELEASE

IMMEDIATE RELEASE

Ambir Technology Scanners Compatible with Document Management System

DocuWare Certifies Ambir's ImageScan Pro 940u, ImageScan Pro 490i, and TravelScan Pro 600ix

New Windsor, NY – February 27, 2018 – DocuWare, a recognized leader of cloud document management and workflow automation solutions, has tested and certified Ambir's ImageScan Pro 940u, ImageScan Pro 490i, and TravelScan Pro 600ix with their latest version, DocuWare 6.12.

All three scanners quickly and easily integrate with DocuWare allowing users to effortlessly transform paper documents into digital files. Documents of various types, sizes, and lengths can be scanned in color or black & white, and simultaneously be delivered directly into a virtual DocuWare tray for further processing.

Digital images from these scanners provide a fully searchable PDF for filing in DocuWare. With one quick search, DocuWare users can then securely access these documents for their key business processes – available anytime, anywhere on any device.

The ImageScan Pro 940u, a compact high-speed scanner, provides single-sided or double-sided scanning up to 40 pages per minute (ppm). The ImageScan Pro 490i and TravelScan Pro 600ix, both compact USB-powered scanners, take only a few seconds to scan a single document. The ImageScan Pro 490i also provides quick double-sided scanning.

"Like DocuWare, we feel it's critical for all businesses, no matter their size, to move away from the burdens of a paper-centric office. Ambir scanners provide clients options in capacity, speed, and portability to fit their exact needs. Whether in the office or on the road, you will be able to

capture, control, and distribute information easily and securely while improving your productivity", said Jason Case, VP of Business Development at Ambir Technology.
