IMMEDIATE RELEASE

Ambir Technology, Inc. Introduces Fax Capabilities to Scanners

Ambir Partners with etherFAX to Offer Fax Solutions

Wood Dale, IL – August 18, 2020 – Ambir Technology, Inc., global leader in sheet-fed and ADF scanner products, begins partnership with etherFax to introduce fax capabilities to scanners.

Ambir Technology, the global leader in sheet-fed and ADF scanner products, has announced their partnership with etherFAX and the introduction of fax capabilities for Ambir scanners. This partnership will bring increased productivity, security and value to Ambir and etherFAX customers.

EtherFAX compatibility ensures secure, HIPAA compliant, data transfer that eliminates the need for a separate fax machine. With the addition of fax capabilities to the AmbirScan software, your scanner can quickly and easily scan information before faxing it to your desired source. Securely transfer data and manage critical fax communication for your business quickly and easily with this new capability.

Ambir's AmbirScan software helps you work faster with automatic card orientation detection and quick scan features. It makes scanning and faxing fast, easy and accurate, optimizing your productivity and saving your time. And by faxing through the etherFAX's SENx Secure Exchange Network with ECIES encryption, faxed information is encrypted to ensure maximum security during transfer.

Fax capabilities are available in AmbirScan for a wide variety of Ambir sheetfed and card scanners. The nScan DS690gt, ImageScan Pro DS687, ImageScan Pro PS667, ImageScan Pro 490i and the TravelScan Pro 600 will also be compatible for fax functionality. These

-more-

scanners have small footprints and utilize USB power to ensure you can securely scan and transfer information in a variety of locations. Scan and fax with ease from your home office, on the road, or anywhere else you need.

About Ambir Technology
